

Discover the Magic Squires Kitchen Paste Food Colours

Are you ready to take your culinary creations to the next level? Look no further than Squires Kitchen Paste Food Colours and allow us to introduce you to a world of vibrant hues, effortless blending, and unmatched versatility.

Add A Pop Of Colour To Your Baking...

Whether you're a seasoned pro or budding baker, Squires Kitchen paste food colours are like the superheroes in your kitchen, packing a powerful punch of colour with just a tiny amount! The concentrated formula ensures that your recipes stay true to their texture and taste making them perfect for colouring cake batters.

Unleash Your Inner Artist...

Just like water colour paints, they are water based and so can be mixed and blended with water to create an array of beautiful colours and shades. If you're not keen on painting directly onto your cake, a handy tip is to cover a thin cake board in sugarpaste to create a decorative topper. It's a great way to add flair to your cakes without the pressure of painting directly onto them!

Blend For the Perfect Match...

With a creamy texture, Squires Kitchen paste colours blend like a dream into frostings and icings, allowing you to mix and match colours to your heart's content.

From soft hues to vibrant shades, you can create custom tones or match this year's trending colours effortlessly and with their long shelf life, they are great value too!

Pure Colour, No Stickiness!

Unlike their liquid counterparts, Squires Kitchen paste food colours are made from a concentrated formula, making them versatile and suitable for colouring just about everything!

This means no unexpected texture changes or stickiness when mixing into icings for covering and modeling - just pure colour!
